**Tables Used in Additional Practices**

Additional practice questions 1-21 use the HR schema. Refer to Appendix B to look at the HR schema tables. The tables used in the additional practices: case study are described below.

Note: These table do not exist by default. You will be creating them in the case study practice questions.

```
                                     for          ┌──────────────────┐
   ┌──────────────────┐                           │      TITLE        │
